Summary of Thapar Teaching Fellows' Optional workshops

FO6: Research Integrated Teaching

Parag Nijhawan, Electrical and Instrumentation Engineering Department

The whole package of learning in terms of disciplinary concepts, theory and application has to be carefully designed to fit in the research expertise into the students' learning experience and meeting the course learning outcomes.

FO7: Enhancing Learning and Feedback Skills of Students through Self and Peer Assessment.

Gurvinder Kaur, School of Humanity and Social Science

Both self and peer assessment have been found compatible to the objective of self-regulated learning and co-operative learning. The workshop will aim at demonstrate how to incorporate peer-to-peer feedback for formative and summative assessments in addition to incorporating student self -assessment. Strategies of rubrics design and effective feedback will also be discussed.

FO8 : Peer Observation of Teaching

Karminder Singh Ghuman, L M Thapar School of Management

The Peer Observation of Teaching (POT), is a process to receive constructive feedback from a peer regarding one's teaching style, methodologies, and strategies. It can assist in the reflective practice by providing inputs in the form of a new perspective, enabling discussion, sharing of best practices for improving one's teaching effectiveness.

FO9: Problem Based Learning

Anoop Kumar Verma, School of Energy and Environment

Project-based learning is a student-centered pedagogy that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems. It can really help students for lifelong learning skills as this kind of project based learning could lead to research integrated teaching in the context of their programme of study.
